Create your own Orchard

WINTER FRUIT & NUT TREE LIST 2023

All our fruit trees for sale at Blueskin are potted during the winter period. They are hand pruned and potted into our own 'special' compost potting mix. This contains our compost and Osmocote slow release fertiliser to insure the tree will establish into a healthy specimen in its first season. As numbers are limited for some varieties, we suggest you order as soon as possible. All available in July. If there is a variety you are looking for which is not on the list we will most probably be able to source it for you.

Almonds

ALMOND GARDEN PRINCE	Compact lushly-foliaged tree. Soft-shelled kernels sweet and tasty. Bears young and heavily. Large soft pink blooms. Self fertile. Useful as pollinator.
ALMOND MCCARTNEY	Compact lushly-foliaged tree. Soft-shelled kernels sweet and tasty. Bears young and heavily. Large soft pink blooms. Self fertile. Useful as pollinator.
ALMOND MONOVALE	Hard nut with strong flavoured kernel. Regular and reliable bearer. Self fertile and disease resistant variety. Good pollinator.
ALMOND SELF FERTILE	Large soft shelled nuts produced on self fertile tree .Requires warm site .Spray in winter with copper to prevent leaf curl.

Apples

APPLE BALLERINA BOLERO	A dwarf apple that has attractive pink tinged, white spring blossom followed by shiny green, early season ripening, fruit, with white juicy flesh. P.V.R.
APPLE BALLERINA FLAMENCO	This columnar growing tree has attractive whit tinged pink blossom, followed by shiny bright red mid season eating apples. Perfect for small spaces and patios.
APPLE BALLERINA POLKA	Stunning column shaped tree with attractive white spring blossoms. Bright red-green mid season eating apples of excellent flavour. Ideal for a container. PVR
APPLE BALLERINA WALTZ	Columnar shaped tree with pink and white blossom in spring . Late season ripening, red apple with sweet juicy flavour. Ideal for container planting or in garden where space is limited.(PVR)
APPLE BELLE DE BOSKOOP	Large dull red ,heavily russeted apple with greenish white,firm flesh. Suitable for eating fresh or cooking. Crisp, tangy full flavoured apple. Ripens late season. Good keeper. Wide spreading tree.
APPLE BRAEBURN	One of the best eating apples on the market. Sweet and tangy, very crisp, juicy and firm. Striped red blush over green skin. Late season. A good keeper.
APPLE BRAMLEY	(Old English type) A sharp and fruity variety, high in Vitamin C. Green to yellow skin and large ,flat round shape.Turns golden and fluffy when cooked. Heavy cropper.Stores well. Mid to late season.

APPLE COX'S ORANGE PIPPIN	Rich, aromatic, nutty flavoured flesh make this older variety still very popular. Red stripes on green skin when ripe. Ripens early season. Best on fertile soil with good drainage.
APPLE EGREMONT RUSSET	The classic russet, with a very rich, sweet nutty flavour and firm flesh. Compact growth makes it suitable for pots. Mid season.
APPLE GOLDEN DELICIOUS	Mild sweet flavour and juicy crisp ,light yellow flesh. Golden-yellow skin when ripe. Old favourite which can be eaten raw or cooked.
APPLE GRANNY SMITH	A late, large sized dessert apple. White flesh which is crisp and juicy ,with distinctive flavour.Heavy and regular cropper on upright ,vigorous tree.Self thinning.
APPLE INITIAL	A new, early, large, red, Gala type, apple with high resistance to disease. Excellent flavour, high aroma, low acid & high sugar. Highly recommended for home gardeners & organic orchardists. PVR.
APPLE KIDDS ORANGE	Medium to large crisp fruit with yellow skin, red blush and stripes.Reliable cropper and good keeper.Ripens mid season.
APPLE LIBERTY	Highly recommended disease resistant variety producing medium sized ,high quality fruit with yellow skin and red blush.Flesh is white,crisp, juicy and sweet.
APPLE LITTLE RASCAL	A dwarf species producing pink and white blossom in spring followed by rose red, sweet juicy fruit. Ideal for a pot or container. PVR
APPLE MONTYS SURPRISE SEMI DWARF	Late ripening ,large apple with red blush over green skin.Crisp for eating but also cooks well.Very high levels of antioxidants and flavonoids which may inhibit growth of cancer cells.
APPLE PACIFIC ROSE	A cross of Gala and Splendour. A unique rose- pink skin colour, medium to large with a rich, sweet flavour, and crisp juicy flesh. Exceptional appearance and storage capability. PVR
APPLE PEASGOOD NONSUCH	The best of all cooking apples. Very large, round golden yellow apple with a red flush and stripes. Flesh is tender with a pleasant flavour. Mid season.
APPLE ROYAL GALA	Very Crisp apple with white flesh and red skin. Sweet. Early maturing and good keeper.
APPLE SCALLYWAG	Dwarf variety perfect for a small garden. Pink and white blossom in spring. A large apple with crisp sweet flavour rich red with dark red flecks. Plant in a warm sheltered position well drained soil. PVR
APPLE STURMER	Late season, medium sized eating and cooking. Green with russet blush skin .This is one of the best all round apples and is an excellent keeper.
APPLE TEACHERS PET	A dwarf species producing pink and white blossom in spring followed by dark red sweet crisp fruit. Ideal for a pot or container. PVR

Apricots

APRICOT FITZROY	Medium sized golden fruit with golden skin.Ripens in February.Consistent and heavy cropper and is self fertile.
APRICOT GARDEN ANNIE	Showy pale pink flowers in spring . Medium to large fruit has bright yellow skin, is semi-clingstone juicy and firm. Self fertile, ideal for smaller garden or in container.
APRICOT MOORPARK	Large fruit with real apricot flavour. Has an orange skin with slight red blush. This is a great eating experience! Ripens late January.
APRICOT SUNDROP	Attractive yellow fruit with golden skin, good flavour, which is even better when fully ripe. Strong grower.Ripens mid -late January. Suitable for dessert or preserving. Partially self fertile but pollination improves with Trevatt.
APRICOT TOMCOT	Very large fruit with strong red blush over orange skin. High quality, freestone fruit with intense apricot flavour. Compact tree with masses of pink blossom in spring. Self fertile.

APRICOT TREVATT

Good sweet flavour with juicy, firm, orange flesh. Pale yellow skin. Med to large fruit. Can be eaten fresh, dried, jammed or preserved. Ripens early season. Self-fertile. Good pollinator for Sundrop.

BERRIES & CURRANTS

BLUEBERRY BLUE MAGIC	(Rabbiteye) Pink tinged creamy white flowers in spring followed by large tasty, medium-sized berries that ripen over an extended period. Bred for NZ conditions. Pollinate with Tasty Blue. Sapphire Blue, Burst, Tifblue
BLUEBERRY DUKE	(Northern Highbush) Early ripening with good crops of mildly sweet-flavoured berries. Requires acid soil, summer moisture and sun. .Pollinate with other Northern Highbush variety such as Blue Crop, Blue Jay or Dixie.
BLUEBERRY ELLIOT	'Northern Highbush' type. Large firm blueberries with excellent flavour. Mid season fruiting (mid January). Vigorous bush with high yields. Protected by PVS.
BLUEBERRY LEGACY	This late season Highbush blueberry produces medium sized berries with good firmness and excellent flavour. It is a high-yielding bush with vigorous upright growth. Adapts well to most soils and cold to moderate climates.
BLUEBERRY MUFFIN	Plant in well drained soil rich in organic matter. Mulch well to ensure moisture for shallow root systems. Feed with slow release fertiliser low in calcium early spring & mid summer. Self fertile. PVR
BLUEBERRY NUI	(Northern Highbush) Very large,light-blue berries. Excellent keeping variety. Prefers full sun and acidic soils. Best planted with Bluecrop, Blue Joy, Dixie or Duke.
BLUEBERRY RAHI	(Rabbiteye) A Rabbiteye type with good sized sweet dark blue fruit, ripening two weeks later than Powder Blue. Highly productive. Best planted with another Rabbiteye variety. PVR.
BLUEBERRY REKA	Northern highbush hybrid. Dark blue, medium sized berries with a sweet flavour,ripening before Christmas. Good autumn colour. Pollinate with other Highbush variety such as Blue Crop, Muffin, Nui, Duke.
BLUEBERRY TWIN PACK REKA/SPARTAN	Northern High Bush Blueberry twin pack- Reka and Spartan
BLUEBERRY TWIN PACK REKA/SIERRA	Northern High Bush Blueberry twin pack-Reka and Sierra
BLUEBERRY TWIN PACK SIERRA/SPARTAN	Northern High Bush Blueberry twin pack- Sierra & Spartan
BRAMBLE BLACKBERRY BLACK SATIN	A very vigorous hybrid thornfree blackberry, flowering and cropping early in the season. Moderately sized, soft, juicy black fruit with a tangy flavour. Slightly dull when fully ripe.
BRAMBLE BLACKBERRY KARAKA BLACK	High yields of very black berries with melt in your mouth flavour over long season. Canes easy to manage.Resistant to disease. Very hardy.
BRAMBLE BOYSENBERRY MAPUA	A mostly spineless berry, cropping well in late season. Large berries easily harvested. Some fully thorny canes will grow from below ground and should be cut off as low as possible. Prefers full sun, fertile soil and well watered while fruit ripens.
CURRANT BEN ARD	Good sized fruit with high yield .Ripens in mid January.Leaf spot resistant.
CURRANT BLACK MAGNUS	Early fruiting. Sweet, medium sized berry. Prefers deep fertile soil with adequate drainage. Fruit mainly on new seasons wood. Self fertile but will increase yield if planted 2 or more.
CURRANT RED GLORIA DE VERSAILLES	(Red) Heavy crops of red berries in December- January. Fruits on 2 year and older wood so only prune out weak branches or to improve shape. Very hardy

GOOSEBERRY INVICTA	A vigorous spreading bush with large pale fruit. Resistant to powdery mildew. Plant in well drained soil with plenty of organic material.
GOOSEBERRY PAX	New mildew resistant variety, mostly thornless with large fruit that are red when ripe. Excellent flavour when eaten fresh. Very hardy.
MORUS NIGRA EUROPEAN BLACK	Easy to grow fruiting tree. Early maturing variety. Red immature fruits turn to large, slightly elongated 45mm long black berries. Mulberries can be eaten fresh, cooked or made into jam. Full sun and free draining soil
MORUS NIGRA SEEDLING	(Black Mulberry) Dark almost black-red fruits are very tasty . Hardy,wide-spreading tree, which when mature becomes gnarled and picturesque. Very long-lived tree.
RASPBERRY ASPIRING	This variety crops twice, once in early summer and again in autumn. It has large, dark red, conical fruit with excellent flavour on vigorous canes with few spines. P.V.R.
RASPBERRY EBONY	Spineless canes with rosettes of berries that turn a dark, rich purple-black when ripe, and have a sweet, delicate flavour. Best in rich, fertile, well-drained soil.
RASPBERRY HERITAGE	Small to medium sized berries borne in large quantities from March to May. Fruits on new wood. Plant in well drained, fertile soil.
RASPBERRY IVORY	Golden yellow raspberries with a delicious, sweet flavour are produced from December to April. Best in rich, fertile soil. Mulch in summer and prune old canes in winter.
RASPBERRY KAITUNA	A summer fruiting, spineless raspberry with a long ripening season. Excellent for fresh picking. Vigorous strong upright canes bearing large medium conical fruit with excellent flavour and good shelf life. PVR.
RASPBERRY WAI AU	Mid season variety with very large, fruit that are conical in shape and remain firm when ripe.Very tasty. Repeat fruits in autumn. Best grown in compost rich soil that are moist but well drained.Very hardy.
RUBUS PENTALOBUS	(Orangeberry) Dramatic, fast-growing ground cover related to the strawberry. Delicate white flowers in Spring followed by bright orange fruit for Xmas. Partly self fertile,but better with strawberries or raspberries nearby.Trim after fruiting. Very hardy.
UGNI MOLINAE	(NZ Cranberry, Chilean Guava) A slow growing small sized bush with aromatic leaves. Flowers are waxy pink bells. Fruits are edible tasty mahogany-red berries.
UGNI MOLINAE SUNGOLD	(Variegated Chilean Cranberry) Vibrant golden-bronze tinted young growth.Small white-tinted pink flowers followed by round reddish edible fruit.Hardy.Full sun or part shade.Lime free soil.
WORCESTERBERRY	(Blackcurrant x Gooseberry) Vigorous bush with dark purplish fruit which appear in summer. Berries can be eaten raw or cooked. Their flavour is between a gooseberry and a blackcurrant. Mildew resistant and very hardy.

Citrus Fruit

LEMON GENOA	This true lemon produces good size, near seedless, juicy fruit with the main crop in summer. Taste is very tangy. Bushy and near thornless. Needs warm sunny spot and protection from frost.
LEMON LEMONADE	Novelty citrus hybrid.. Crops of lemon shaped medium sized fruit , slightly sweeter than lemon. Juicy, mild flavour.Prefers good drainage , regular feeding and warm sunny position. Needs protection from frost.
LEMON MEYER	Hardy tree which produces large sweet fruit at an early age. Requires good drainage and warm sheltered position. Keep well watered and feed regularly.Avoid deep cultivation.Protect from heavy frost.
LEMON MEYER DWARF	Dwarf Grafted on dwarf rootstock) produces large sweet fruit at an early age. Requires good drainage and warm sheltered position. Keep well watered and feed regularly.Avoid deep cultivation.Protect from heavy frost.
LEMON YEN BEN	Lisbon type lemon with thin skin. This is a prolific bearer . Fruit are juicy. Good variety for home gardener as smaller growing and hardy . Will need warm sunny position and protection from frost .

LIME BEARSS	This improved selection of Tahitian Lime produces small, thin-skinned, almost seedless fruit. Needs a warm, sheltered, frost free site and well drained ,fertile soil. Ideal container plant .
LIME FINGER LIME	Small, thorny, with tiny leaves this plant produces finger like fruit which contain pearl like sacs which are tart and juicy, sometimes known as Citrus Caviar. Prefers full sun and protection from frost.
LIME KAFFIR	The rind and leaves of this variety are popular in Asian cooking although the bumpy-skinned fruit is inedible. Must have a warm, sunny site with frost protection in the winter.
LIMEQUAT EUSTIS	Ornamental citrus which is cross between Mexican Lime and kumquat. Small light yellow fruit are sweet without bitterness and can be used as lime substitute. Requires full sun and good drainage. Feed regularly.Good container plant.
MANDARIN CLEMENTINE	A compact plant with medium-sized fruit with excellent flavour. Ripens late winter. Avoid putting near other Citrus as fruit can become very seedy. Prefers full sun and protection from frosts.
MANADARIN ENCORE	A strong growing mandarin with large summer ripening fruit that is easy peel with good flavour. Prefers well drained soil in full sun.
MANDARIN KAWANO	Medium sized tree bearing heavy crops of sweet and juicy ,easy to peel fruit. Ripens in winter. Needs full sun and warm sheltered position. Protect from frost.
MANDARIN MIHO	An improved selection of the 'easy peel' satsuma mandarin, bearing crops of large, rounded, flat-shaped fruit. A juicy, mild flavoured fruit. Prefers warm sunny position. Protect from heavy frost.
MANDARIN SATSUMA	The original selection of the seedless. Easy peel with a thin leathery skin. Fruiting in late Autumn. Prefers full sun with moist but well drained soil. Protect from heavy frost.
MANDARIN SILVER HILL	Early fruiting variety. Abundance of large satsuma type fruit with loose skinned, peels easily. Juicy and mild in flavour. Tolerant of cooler climates. Protect from heavy frost when young.
ORANGE HARWOOD LATE	Average sized, very juicy fruit with a rich flavour.Ripens from November to March. Protect from frost .Needs a warm sunny position.
ORANGE SEVILLE	The spanish variety with heavy crops of fruit for preserves, sauces and marmalades. A vigorous, upright growth habit and produces heavy crops with a sour orange flavour. Prefers full sun and moist but well drained soil. Protect from heavy frosts.
ORANGE SINENSIS CARA CARA	Naturally seedless winter navel orange produces orange fruit with flesh that can take on deep pink tones in spring. Fragrant raspberry orange and rose petal flovour, easy peel. Full sun well drained soil, Protect from frost
ORANGE VALENCIA	Closely related to Orange Harwood's Late, Valencia has a sweet flavour and very few seeds. Ripens February to October. Prefers full sun, well drained soil, regular feeding during the fruiting season and adequate water. Protect from frosts.
TANGELO SEMINOLE	Mandarin-grapefruit cross produces great crops of juicy, semiflat, reddish orange fruit. Mandarin flavour with a grapefruit tang. Protect from heavy frost.
TANGOR UGLI	A vigorous, rounded tree with bright green foliage. Good crops of large fruit with a pleasant and distinctive flavour. Matures late spring.

Cherries

CHERRY COMPACT STELLA	Large, dark red cherry in huge clusters. Flesh firm, good home garden variety. Ripens around Christmas. Self fertile.
CHERRY DAWSON	Old favourite. Large dark red skinned, dark fleshed cherry, maturing mid to late December.Upright habit. Can be pollinated by Stella or Bing.
CHERRY MONTMORENCY (SOUR)	An Amorelle-type sour cherry with bright red skin, white flesh and clear juice. Great for pies and preserves. High in antioxidants. A disease resistant, compact, spreading tree. Self-Fertile
CHERRY RAINIER	Large golden to orange cherry with sweet yellow flesh. They also have a tender texture, almost creamy, and very sweet. Excellent eating. Pollinate - Dawson, Bing

CHERRY STELLA

Large, sweet dark red fruit. Prolific and regular bearer. Great pollinator. Mid-season. Forms a large tree but can be espaliered and trained to shape and size. Self Fertile.

Chestnut

CHESTNUT no. 1005

Vigorous early and consistent cropper. Early harvest.

Feijoas

FEIJOA ANATOKI	Exciting new variety with exceptionally sweet ,very early season fruit and large lush deep green foliage. Best planted near another early flowering variety such as Unique or Kaiteri for pollination(Provisional PVR)
FEIJOA ANTOINETTE	Small to medium semi upright evergreen tree. Medium to large fruit with semi smooth skin sweet aromatic flavour abundance of pulp. Early Season best planted with another early season variety. Fertile well drained soil. PVR
FEIJOA APOLLO	Large fruit with excellent flavour early in season. Requires another variety for cross-pollination. Hardy. Suitable for edible hedge.
FEIJOA ARHART	Early flowering variety. Nice bushy habit ideal for hedging or topiary. Hardy to southern Climate. Cross Pollinate with Unique.
FEIJOA BAMBINA	Attractive evergreen bush. Fruits from April onwards. Petite fruit with smooth green skin. Eat skin and all. Pollinated by birds and best to plant more than one. PVR
FEIJOA DEN'S CHOICE	A plant of good growth habit that fruits mid-season with large sweet fruit. A good variety for eating. This variety is drought tolerant. Best planted with another variety for better pollination, such as Apollo or Kakapo.
FEIJOA KAITERI	Very early season variety with exceptionally sweet, tasty and large fruit. Partly self fertile but best planted with other variety. Feijoas have attractive foliage and striking red flowers in summer. Hardy. Needs hot summer for good fruit .(PVR)
FEIJOA KAKARIKI	An exceptionally early variety, with very sweet and large fruit. Named after Maori word for green. For best fruiting, plant another early fruiting variety such as Kaiteri, Anatoki or Apollo.(Provisional PVR)
FEIJOA SHERBERT	New release 2016. Early fruiting variety with very large fruit, white flesh and sweet tangy flavour. Vigorous growth habit and more tolerant of drought and wind than other varieties. Pollinated by Unique or other early variety.
FEIJOA UNIQUE	A small tree which produces lots of large fruit early season .Self-fertile and useful as pollinator. Best to plant more than one bush.Hardy. Can be grown as a hedge.
FEIJOA WIKI TU	A dwarf, easily managed tree with huge fruit of firm texture mid to late season. A good keeping variety. Partly self fertile, but better if you plant with another variety.(PVR)

Figs

FIG BROWN TURKEY	A rich flavoured fig of large size, brown skin and pink flesh. Long oval shape. Will bear two crops a year in early summer and autumn.
FIG FRENCH SUGAR	Large fruit with dark green skin and succulent pale pink flesh. Heavy cropper. Later fruiting. Excellent fruit. Small tree, requires hot dry conditions.
FIG MRS WILLIAMS	Strong growing tree which crops well. Fruits have yellowish- green stain, with rich red flesh. Requires hot dry conditions.

Grapes

GRAPE ALBANY SURPRISE	Reliable outdoor variety. Heavy cropper of large, juicy and aromatic fruit with bluish-black skin . Vigorous. Disease resistant. Mid-season ripening. Suitable for wine production.
GRAPE CANADICE	Medium sized bunches of red-black seedless grapes, with excellent delicate flavour. Good disease resistance and winter hardiness. Early ripening.
GRAPE IONA	Medium white grape tinged pink when ripened in February. Very sweet and juicy. High resistance to downy mildew. Very hardy and well suited to coastal conditions.
GRAPE NIAGARA	Sweet juicy white grapes with a tangy flavour. Vigorous with large clusters of fruit in mid season.
GRAPE SCHUYLER	Large, early fruiting, sweet, dessert grape, with jet black skin. Regular and heavy cropper of medium sized fruit which are produced in long clusters on vigorous vines. Plant in full sun and feed regularly. Suitable for outdoors.

Hazelnuts

CORYLUS AVELLANA BARCELONA	(Hazelnut) Hardy vigorous with a large nut, flowering mid-season. Pollinate with Alexandra or Merveille de Bolwillier.
CORYLUS AVELLANA MERVEILLE DE BOLWILLIER	A hardy vigorous hazelnut, cropping in late autumn. Useful tree, ideal for hedging or specimen planting. Delicious nuts and an excellent pollinator.
CORYLUS AVELLANA TONDA ROMANO	Produces good crops of small-medium sized nuts with excellent flavour. Pollinators: Barcelona, Merveille de Bowillier, Tonda di Giffoni
CORYLUS AVELLANA WHITEHEART	(Hazelnut) Large bushy shrub which makes a good hedge. A selected form with nuts of excellent flavour for eating, roasting, cooking or stuffing. Pollinators Alexandra, Merveille de Bolwillier.

Guava

GUAVA YELLOW CHERRY	White flowers in late Spring followed by crops of large round yellow aromatic fruit in late Autumn. Prefers full sun and well drained soil. Protect from heavy frosts.
------------------------	--

Hops

HUMULUS LUPULUS SMOOTH CONE	(Hop Vine) Ex commercial NZ bred hop with striking female flowers in autumn. Great as an ornamental, for brewing and for floral arrangements. Requires sun and summer water. Needs to be trained over arch or supported. Hardy.
--------------------------------	---

Macadamia

MACADAMIA BEAUMONT	A vigorous macadamia producing a high quality edible nut. Self pollinating, but will crop better if planted with another variety. Prefers free-draining soil and shelter from heavy frost.
--------------------	--

Nectarine

NECTARINE FANTASIA	A late fruiting nectarine with very attractive yellow/red blushed skin and yellow flesh. Freestone with a lovely flavour. Spray regularly with copper spray in spring to control peach curl.
NECTARINE MABEL	Unique dark purple foliage tinged with green. Delicious sweet purple-skinned fruit. Ripening mid season and is quite hardy to diseases. Self fertile. PVR
NECTARINE QUEEN GIANT	Very attractive large fruit with red and cream skin, ripening in mid season. Very sweet pure white tender flesh. Freestone.
NECTARINE SNOW QUEEN	The "classic" old fashioned Delicious creamy, white fleshed fruit with deep red skin. Fruits mid January. Tasty. Freestone. Self fertile

Olives

OLIVE EUROPEA J5	Produce a heavy crop of good sized fruit. Good for pickling or oil.
OLIVE FRANTOIO	One of best of Tuscan oils. The olives are smallish and ripen late in season. Vigorous growing, hardy. Self-fertile, but better pollinated with Leccino or Picholene. Pickles well when green.
OLIVE LECCINO	A great Tuscan variety producing good low-acid oil. One of the most frost hardy cultivars. Vigorous. Cross pollinate with Picual, Pendolino or Frantoio.
OLIVE PICUAL	Spanish variety. Early producing with high oil content. Salt tolerant variety .Hardy to cold. Compact bushy growth. Self-fertile .

Passonfruit

PASSIONFRUIT BLACK BEAUTY	(Black Passionfruit) A vigorous vine for a warm, frost-free position. Beautiful mauve and white flowers are followed by round fruit, purple when ripe, juicy and aromatic.
---------------------------	---

Peach

PEACH BLACK BOY	A late peach with purplish/red flesh and furry purple skin. Late season. Suitable for eating fresh when ripe and preserving. Reliable cropper and resistant to peach curl.
PEACH GOLDEN QUEEN	Late season yellow fleshed clingstone peach .Old favourite for preserving. Regular cropper.
PEACHARINE HEALEYS	Cross between peach and nectarine. Beautiful tasting with golden crunchy flesh with a red blush. Fruits late January. Regular cropper.
PEACH SWEET PERFECTION	New leaf curl resistant selection found by Helen Brookes near Duntroon. Abundance of red skinned, freestone, yellow fleshed ,juicy fruit. Resistant to browning. Great flavour and good for preserving.(PVR)

Pears

PEAR BELLE DU JUMET	Sweet heritage, sugar pear that ripens in late January. The fruit shape is similar to Bosc. Good regular cropper. Self-fertile but assisted by other pears.
PEAR BEURRE BOSC	A mid to late pear with a long shape and brown skin. Good flavour. Heavy cropping. Partly self-fertile but pollination helped by Conference, Taylors Gold, Winter Nelis.
PEAR CONFERENCE (DWARF)	Green skin with some russeting. Sweet and juicy. Ripens February to March. Upright shape, regular, heavy bearer. Self-fertile.
PEAR CONCORDE	(Comice X Conference cross.) Excellent eating pear with green skin and some russeting. Late season and good keeper. Self fertile and good pollinator for Comice type pears.

PEAR DOYENNE DU COMICE	A delicious, large mid-season pear. Dessert type, skin green/yellow with a brown blush. Suggested pollinators Bon Chretien or Winter Nelis.
PEAR GARDEN BELLE	Only true dwarf pear variety. White spring blossom, glossy summer foliage and good autumn tones. Delicious, sweet flavoured fruit with smooth flesh texture and green and slight russeted skin. Ripens mid summer. Partially Self fertile.
PEAR NASHI HOSUI	Apple shaped fruit in late February. Adaptable to both cold and warm climate. Prefers a well drained soil. Prune well in winter. Pollinate with Kosui, Nijiseiki or Shin Seike.
PEAR NASHI NIJISEIKI	Large apple-shaped Asian pear with smooth yellow-green skin. Moderately sweet, juicy flesh. Mid season fruiting. Partially self fertile but better with another variety.
PEAR PACKHAMS TRIUMPH	Medium to large fruit with green-yellow skin with red blush and sweet juicy flesh. Heavy cropper and good keeper. Suitable for dessert or preserving. Pollinators are Beurre Bosc Bon Chretien, Conference.
PEAR STARK CRIMSON	Bright cherry red in colour with sweet flavour, flesh is quite fine. Ripens in early February. Upright growth Pollinated by Conference, Winter Nelis and William Bon Chretien.
PEAR TAYLORS GOLD	Fully russeted brown skin. Buttery, succulent fruit, which is large and juicy. Ripens late season. Pollinate with Beurre Bosc, Conference, Packham's Triumph. P.V.R. No.626.
PEAR WILLIAM BON CHRETIEN	Large, early variety with white, firm but juicy flesh and pale green skin which turns yellow when ripe. Best picked green. Suitable for cooking, preserving or fresh eating. Pollinated by Beurre Bosc, Winter Nelis, Conference or Doyenne du Comice.
PEAR WINTER NELIS	Good eating pear with light russet skin. Late season ripening and good keeper. Pollinate with Conference or William bon Chretien.
PEAR DOUBLE GRAFT BEURRE BOSCH/ TAYLORS GOLD	Two varieties on one plant. Ideal for small gardens or just for something different. One variety pollinates the other.
PEAR DOUBLE GRAFT CONFERENCE/DOYENNE DU COMICE	Two varieties on one plant. Ideal for small gardens or just for something different. One variety pollinates the other.
PEAR DOUBLE GRAFT WINTER NELIS/WILLIAM BON CHRETIEN	Two varieties on one plant. Ideal for small gardens or just for something different. One variety pollinates the other.

Pine Nut

PINUS PINEA	(Stone Pine Or Umbrella Pine) Glaucous colour while juvenile. Grows into a small flat top tree, very hardy in dry conditions. Cones 8 - 16cm long. The edible seeds are commonly known as pine nuts.
-------------	--

Plums

PLUM BILLINGTON	Medium sized plum with dark red flesh and skin. Good dessert and jam plum. Pollinators : Black Doris, Omega, Wilsons Early.
PLUM BLACK DORIS	A popular early, large plum with dark red flesh and black skinned fruit. Vigorous and upright tree. Pollinator Elephant Heart, Billington or Santa Rosa. Good for eating fresh or cooking.
PLUM BURBANK	Large, round, dark red fruit with sweet, juicy, aromatic yellow flesh. Crops regularly and heavily. Mid-season. Partially self-fertile, but better with other plums.
PLUM COES GOLDEN DROP	Large oval yellow plum with good flavour and juicy flesh. Mid-season ripening. Pollinated by Greengage, Damson, Reine Claude du Bavay or Prune
PLUM DAMSON	English plum with small oval fruit. Greenish yellow flesh and blue black skin. Ripens late January. Traditional jam and sauce plum. Self fertile.

PLUM DUFFS EARLY JEWEL	Red skin over yellow flesh. Heavy cropper. Ripens late December- January. Self-fertile and good pollinator for other plums .
PLUM ELEPHANT HEART	Very large, mid-season, red fleshed plum with red skin. Good dessert plum. Upright and vigorous tree. Pollinators Burbank and Omega.
PLUM GREENGAGE ENGLISH	Round yellowish-green fruit with rich tender flesh. Late season. Recommended pollinators- Coes Golden Drop, Angelina Burdett.
PLUM FORTUNE	Large, round-conical, bright red fruit ripening late January/ February. Juicy, firm yellow flesh. Freestone when fully ripe. Pollinated by Santa Rosa or Billington.
PLUM GREENGAGE REINE-CLAUDE DU BAVAY	Heavy cropping, succulent, green fruit with sweet yellow flesh and distinctive greengage flavour. European greengage type. Self fertile. Ideal for bottling or dessert.
PLUM HAWERA	Large dark red fruit with very firm dark,blood red flesh and excellent flavour.Heavy cropper. Ripens January.Good for fresh eating or preserving. Self-fertile.
PLUM LUISA	Very large plum with yellow flesh and skin and virtually freestone. Exceptional eating quality,very juicy. Ripens late January early February. Hardy to all diseases. Self- Fertile. Protected by PVR.
PLUM OMEGA	Late season, large, red fleshed, sweet,free-stone plum. Deep red-speckled green skin. Good eating and preserving. Partially self-fertile. Better with pollinator such as Santa Rosa, Duffs Early Jewel or Billingtons .
PLUM PURPLE KING	Large orange-yellow flesh with purple-red skin .Suitable for fresh eating or cooking. Late season ripening and excellent cropper. Suggested pollinators are Elephant Heart,Omega ,Wilsons Early or Duffs Early Jewel.
PLUM QUEEN ROSA	A Japanese plum that was California bred. The fruit is large and round with dark crimson skin and firm yellow flesh that is juicy and sweet. Ripens around February. Pollinate with Santa Rosa or Satsuma.
PLUM RUBY QUEEN	Highly productive variety with dark red/black skin and firm red flesh. Fruit is sweet and juicy. Good disease resistance. Late ripening.Pollinate with Santa Rosa, Elephant Heart, Hawera, Satsuma
PLUM SANTA ROSA	Large dessert plum with yellow tinged pink,sweet flesh. Ripens January- February.Party self fertile,but better pollination with Duffs Early Jewel or Omega.
PLUM SATSUMA	Medium sized plum with mottled dark red skin and very dark red flesh which is firm,and juicy sweet with slight tang and rich flavour.Heavy cropper .Suitable for fresh fruit,jam or stewing.Freestone. Suggested pollinator Santa Rosa.
PLUM SHIRO	The best yellow plum with golden yellow skin and juicy crisp yellow flesh. Round, clingstone and medium sized. Early to mid season. Suggested pollinator is Santa Rosa.
PRUNUS SPINOSA (SLOE PLUM)	Large dense shrub with dark spiny branches.Small white flowers in early spring.Fruits, like small damson plums are blue then shining black .Used to flavour gin,wine or preserves.Very hardy.
PLUM VICTORIA	UK's favourite plum. Produces heavy crops of egg-shaped plums with yellow flesh and red or mottled skin. Excellent for dessert,bottling, cooking or jam. Grows into wide-spreading tree,magnificent in flower. Self-fertile .Mid season.
PLUM WILSON'S EARLY	Small to medium plums with yellow flesh and red skin. Juicy with slight tart flavour. Heavy cropper in late December -January. Partly self-fertile but benefits from pollination with Omega or other plums.

Pomegranate

PUNICA GRANATUM WONDERFUL	(Pomegranate) Good ornamental fruiting tree for lawns and borders.Fruit are large, glossy, purplish red with crimson juicy flesh.
---------------------------	---

Quince

QUINCE SMYRNA	A vigorous tree with unusually large leaves. Very large fruit with smooth pale yellow skin. Mild, tender flesh, sweet when cooked. Keeps well. Self fertile.
QUINCE VAN DIEMAN	A small tree grown for its white rose-like flowers and large, yellow-orange, aromatic fruit with spicy flavour and 'furry skin'. Early ripening. Heavy bearing and hardier than most quinces. Self fertile.

Walnuts

WALNUT REX	(Grafted Walnut) Excellent nuts of good flavour. Smaller compact tree with high yields. Later flowering so suitable for areas with late frosts. Resistant to walnut blight.
WALNUT SHANNON	(Grafted Walnut) A promising selection from the Manawatu with all the desirable features of a top quality nut. Appears to be resistant to Walnut blight. Clean well filled out nut with over 50% crackout.
WALNUT SEEDLING ENGLISH	(COMMON WALNUT) A slow growing medium sized tree with rounded head. Valuable as a timber tree and for nuts. Prefers well drained soils.
