Plant Variety	Narrative	Spec.
<b>Shrub</b>		
<b>deciduous</b>		
BAMBUSA GRACILIS	Syn. Drepanostachyum falcatum. Dense clumping bamboo. Graceful curving stems. Ideal for poolsides, patios, feature gardens. Once established hardy to most conditions.	Evergreen. Ht 3m
BERBERIS "HELMOND PILLAR"	A vigorous, narrow and upright form of Barberry with attractive round rich purple foliage turning vivid crimson and scarlet shades in autumn. With careful pruning and training can be grown into a narrow vertical specimen.	Deciduous 2m
BERBERIS THUNBERGIA ATROSUPERBA	Bolder form of purple barberry with long arching branches and larger, more rounded leaves coloured blackish-red changing to orange-scarlet in autumn. Very hardy.	Deciduous. Ht 1.50m
BERBERIS THUNBERGII LITTLE FAVOURITE	Low growing form of purple berberis. Has rich deep purple foliage turning scarlet orange in autumn. Makes good hedge. Very hardy.	Deciduous Ht 50cm
BERBERIS THUNBERGII MARIA	Butter yellow foliage appears early spring and holds through into autumn when it takes on tones of apricot and orange. Compact, upright growth. Suits full sun or part shade. PVR	Deciduous 1m x 30cm
BERBERIS THUNBERGII ROSY GLOW	A very striking small shrub. The leaves on the new shoots are multi-coloured, purple, bright rose and silver pink, later becoming purple.	Deciduous. Ht. 80cm
CARYOPTERIS DARK KNIGHT	Compact deciduous shrub with grey-green leaves. Scented deep vibrant blue flowers through summer and autumn. Best in a sunny spot with well drained soil. Trim well in winter or early spring. Hardy	Deciduous 60x60cm
CARYOPTERIS INCANA PAVILLON WHITE	A new variety of dwarf Caryopteris with masses of white from Late Summer through until Autumn. Prefers full sun and well drained but moist soils. PVR	Deciduous Ht. 60cm
CEANOTHUS GLOIRE DE VERSAILLES	Very beautiful deciduous Ceanothus with large panicles of powder blue flowers in summer and autumn. Plant in full sun in well drained soils. Very hardy and suitable for coastal conditions.	Semi-deciduous Ht 1.5m X 1.5m
CEANOTHUS HENRI DESFOSSE	Custers of bright blue flowers on red stems through summer. A compact shrub with fresh green foliage. Trim after flowering. Hardy	Deciduous Ht. 1m
CERATOSTIGMA PLUMBAGINOIDES	Small spreading shrub with dark green leaves becoming reddish-brown in autumn. Deep blue flowers for many months of year. Responds to regular pruning. Suitable for dry banks. Very hardy.	Deciduous Ht 50cm
CHAENOMELES GREEN ICE	Green-white flowers on bare branches in late winter to early spring. Prefers sunny position. Very hardy to cold. Can be grown as shrub or trained along fence.	Deciduous. Ht 2m
CHAENOMELES SPECIOSA ALARM	(Flowering Quince) Attractive bright red flowers on bare branches in late winter to early spring. Prefers sunny position. Very hardy to cold. Can be grown as shrub or trained along fence.	Deciduous Ht 2m
CHAENOMELES SPECIOSA APPLE BLOSSOM	(Flowering Quince) An upright plant that has white with pink tinged flowers in late winter/early spring. Prefers full sun and well drained soil.	Deciduous Ht 1.8m
CHAENOMELES SPECIOSA EARLY ORANGE	A picturesque hardy shrub with bright orange flowers that cover the bush from winter to spring. Good for floral work. Likes a sunny position. Prune after flowering. Very hardy	Deciduous. Ht 2m
CHAENOMELES SPECIOSA MRS MURPHY	Deep red saucer shaped flowers borne in late winter prior to leaf burst. Much branched spreading shrub. Very hardy. Can be pruned immediately after flowering to form a wall shrub.	Ht 2m Deciduous.
CHAENOMELES SPECIOSA YOKUKU	Flowering Quince. Early blooming, saucer shaped pure white flowers with tinges of green. Fruit can be used for jelly. Very hardy tree, tolerant of soil and climatic extremes. Best in full sun.	Deciduous

Plant Variety	Narrative	Spec.
<b>Shrub (continued)</b>		
CHIMONANTHUS PRAECOX	(Winter Sweet) Sweet scented ,waxy,golden yellow flowers appear in late winter while the branches are still bare. Can be picked for indoors.Very hardy.	Deciduous Ht 2.5m
CHIMONANTHUS PRAECOX LUTEUS	Well distinguished by rather larger clear waxy yellow flowers, which are sweetly scented. Very hardy. Can be pruned after flowering.	Deciduous. Ht 2m
CLETHRA ALNIFOLIA HUMMINGBIRD	Magnificent large shrub with fragrant white lily of the valley type flowers produced in large terminal panicles.Protect from heavy frost.	Deciduous. Ht 2m
CORNUS ALBA ELEGANTISSIMA	A very hardy, red-stemmed dogwood. Broadly margined cream variegated leaves throughout the growing season. Very cold hardy and easy to grow. Tolerates damp areas.	Deciduous.Ht 2 x 1.5m
CORNUS ALBA SIBIRICA	(WESTONBIRT DOGWOOD) Brilliant crimson stems throughout winter. Berries blue/white. Less robust form than Cornus Alba, so does not get as large. Good autumn colour	Deciduous. Ht 2m
CORNUS SANGUINEA MIDWINTER FIRE	Oval green leaves, turning orange-yellow in autumn. Brilliant orange-yellow stems in winter.Prune to 7cm from ground in spring to promote coloured new growth, then fertilize. Prefers damp soil and part shade.Very hardy.	Deciduous Ht 1.5m X 0.8m
CORNUS STOLONIFERA FLAVIRAMEA	(Yellow Stemmed Dogwood) Young stems yellow in winter, very effective when planted with Cornus Alba. Tolerates wet conditions. Very hardy.	Deciduous. Ht. 2m
COTINUS COGGYGRIA	(Green Smoke Bush) Smooth rounded green leaves with brilliant autumn colours. Fawn coloured plumes of flowers 15 - 20cm long at Christmas.	Deciduous. Ht 3m
COTINUS COGGYGRIA PURPUREUS	(Purple Smoke bush ) The round deep purple leaves always attract attention. Hazy purple smoke-like flowers. Good autumn colours.	Deciduous. Ht 3m
COTONEASTER HORIZONTALIS	A low growing shrub of prostrate habit, with branches of characteristic "herring-bone" pattern. Can be espaliered. Covered in red berries in autumn and winter. Very hardy.	Deciduous.
COTONEASTER HORIZONTALIS VARIEGATUS	Impressive bright scarlet berries and attractive variegated foliage, fan-shaped branches. Very suitable for covering low walls and banks. Very hardy.	Deciduous
DEUTZIA GRACILIS NIKKO	Delightful low spreading form, producing masses of tiny snowy white tubular blossoms in late spring. Very hardy.	Deciduous. Ht. 60x90 cm
DEUTZIA PINK POM POM	An attractive shrub with clusters of pink flowers fading to white in early summer. Very hardy.	Deciduous. Ht 1.5m
EDGEWORTHIA CHRYSANTHA GRANDIFLORA	(Yellow Daphne) An interesting shrub with stout stems in spring producing large silvery buds opening to heads of yellow tubular flowers.	Deciduous Ht 1.5m
EXOCHORDA X MACRANTHA THE BRIDE	Dense, arching shrub forming a mound of large white flowers in spring. Prolific flowering, dark green foliage on pendant branches. Suits a sunny, well drained, acid soil. Very hardy.	Deciduous Ht 1.5-2m
FUCHSIA ASSORTED	Fuchsias prefer a shady spot and reward you with vibrant blooms for months on end. Plant in a fertile, free draining soil, keep moist and away from strong winds	Semi Deciduous
HYDARNGEA MACROPHYLLA HOBELLA	(Lacecap Variety) This is a gorgeous double lacecap hydrangea with shell pink flowers which age green then red in the antique phase. Great for cut flower or drying. Likes a shady spot.	Deciduous Ht 1.2m
HYDRANGEA ARBORESCENS ANNABELLE	Beautiful hydrangea with large white flower heads 5 - 15cm across. Hardy shrub suitable for most soil types and a shaded position. Suitable for drying or picking. Very hardy.	Deciduous Ht 1.5m X 1m
HYDRANGEA AYESHA	(Bubble or popcorn hydrangea) Heads of densely packed thick cup-shaped florets. Colour ranges from greyish lilac to strong candy pink. Fragrant. Prefers moist soil and part shade.	Deciduous Ht 1.5m
HYDRANGEA BLAUMEISE	(Lacecap) Deep blue lacecap flowers produced prolifically through the summer. Compact growth habit. Plant in a shady spot with ample water. Apply acid fertilizer to keep good blue colour.	Deciduous.Ht 70cm
HYDRANGEA BLUEBERRIES AND CREAM	(Lace cap) Dramatic Blue/White flowers cover the plant throughout summer. Prefers part shade in well drained soil. Good for containers.	Deciduous Ht 1.2m
HYDRANGEA GRANDAD	Good selection with enormous 25cm pure white mophead flowers and lush green leaves. Prefers moist position in either sun or shade. Prune stems with spent flowers in winter.	Deciduous Ht 1.8m

Plant Variety	Narrative	Spec.
<b>Shrub (continued)</b>		
HYDRANGEA MACROPHYLLA AGNES PAVELLI	(Mophead) Tall growing with large white flowers. Looks best when protected from midday sun. Prefer part shade in moist soil.	Deciduous Ht. 1.2m
HYDRANGEA MACROPHYLLA CORAL	A stunning multi-coloured variety. Flowers open predominantly pink or blue and as the season progresses the colour palette changes to combinations of pink, purple, blue and green. A tidy compact plant	Deciduous Ht. 1.2m
HYDRANGEA MACROPHYLLA FIREWORKS	(Lacecap) Showy heads of double petalled lacecap flowers. Colour varies from blue to white to pink depending on soil acidity. Prefers some shade and good soil moisture. Hardy.	Deciduous 1M X 1M
HYDRANGEA MACROPHYLLA HARLEQUIN	Large clusters of bicoloured flowers, rosy-red with white margins throughout summer. Best in semi shade with good soil moisture.	Deciduous 1.5mH X 1M
HYDRANGEA MACROPHYLLA LIBELLE	Lace Cape - Large pure-white ray-florets and blue fertile flowers. Prune hard in late autumn and water during dry spells. Deciduous.	Ht 45cm x 60cm
HYDRANGEA MACROPHYLLA MATHILDE GUTGES	Free flowering blue mop head. Easily grown. Prune and feed annually. Apply aluminium sulphate to achieve deep blue colour. Full sun or part shade.	Deciduous Ht 60cm x 90cm
HYDRANGEA MACROPHYLLA NIGHTINGALE	The biggest and best blue lacecap hydrangea. Masses of deep blue flowers in midsummer. Hardy, prune after flowering. Shade.	Deciduous. Ht 1.5m
HYDRANGEA MACROPHYLLA PIAMINA	Dwarf variety which carries a profusion of soft rose-pink flower heads in early summer. Ideal patio or tub plant. Hardy.	Deciduous. Ht 60cm
HYDRANGEA MACROPHYLLA WHITE	Mophead Attractive deciduous bushy shrub with glossy green leaves in summer. Produces masses of white mophead flowers during summer. Prefers shade or part shade with moist but well drained soil.	Deciduous Ht. 1.2m
HYDRANGEA MASJA	Huge round heads of red flowers. A compact plant well suited to pot culture. Prefers well-drained soil, ample water and semi shade. Very hardy.	Deciduous. Ht 75cm
HYDRANGEA MERVEILLE SANGUINE	(Raspberry Crush or Bloody Marvellous) Ox blood-red ball-shaped flowers on deep bronze green serrated foliage. Prefers some shade and well drained soil. Feed with lime to enhance red colour. Flowers can be used fresh or dried.	Deciduous Ht 1.2 x 1.2m
HYDRANGEA PANICULATA CANDLELIGHT	Upright habit with large flowerheads starting creamy coloured, but turning pink to red as they age. Prefers part shade or shade. PVR	Deciduous Ht. 1.2m
HYDRANGEA PANICULATA GRANDIFLORA	One of the showiest hardy shrubs. Forms a multi-stemmed shrub with dark green leaves, which turn bronze in autumn. Large creamy-white florets are produced from late spring to autumn. Good for picking.	Deciduous Ht 2.5m X 2.5m.
HYDRANGEA PANICULATA KYUSHU	In late summer dainty long pointed panicles of creamy white flowers adorn this bush. Clean fresh bright green foliage. Very hardy.	Deciduous Ht 1.5m
HYDRANGEA PANICULATA LEVANA	Produces very large, fragrant, pure white flowers (up to 50cm) in late summer. Attractive to insects and butterflies. Great cut flower. Requires sun or part shade and summer moisture. Light trim in late winter. Very hardy.	Deciduous Ht Up to 3m unpruned
HYDRANGEA PANICULATA LIMELIGHT	Long panicles of sterile lemon coloured green to creamy white flowers in late summer and autumn. Golden autumn colour. Prefers full sun or part shade. Hardy.	Deciduous Ht 1.2m
HYDRANGEA PINK	Pink flowers throughout summer. Apply lime liberally to retain good colour. Grows well in damp, shaded or open position.	Deciduous. Ht. 1-1.5m
HYDRANGEA QUERCIFOLIA ICE CRYSTALS	An oak leafed Hydrangea with creamy white flowers from mid-Summer into autumn. A compact plant with gorgeous autumn colours. PVR	Deciduous Ht 1.2m
HYDRANGEA QUERCIFOLIA PEE WEE	Dwarf compact selection, topped with beautiful sterile pure white cone flower heads from early summer. Good autumn foliage colour. Hardy.	Evergreen Ht. 0.9m x 0.6m
HYDRANGEA RENATE STEINIGER	(Mophead) Lush blue blooms throughout the Summer and into Autumn. Compact habit suitable for small gardens or large pots. Best with good soil, some shade and Summer moisture. Feed regularly, use acid food to keep blue colour.	Deciduous. Ht 75cm

Plant Variety	Narrative	Spec.
<b>Shrub (continued)</b>		
HYDRANGEA SABRINA	Delicate white blooms edged rose pink. Provide adequate moisture during hot weather . Prune old stems that have flowered.Prefers some shade.	Deciduous Ht 1m
HYDRANGEA SCHNEEBALL	(SNOWBALL HYDRANGEA) Clear white blooms throughout summer. Great in a pot in a cool spot. Best in good soil with summer shade and moisture. Feed regularly. Compact growth habit.	Deciduous. Ht 60cm
HYDRANGEA SENSATION	Unusual multi-coloured Mophead hydrangea rose pink with white margins. Acid soil in filtered sunlight with cool rootrun.	Deciduous
HYDRANGEA SERRATA COVER ME	A pink flowered ground cover Hydrangea that grows just 50cm high. Perfect to fill the garden with low foliage and stunning blooms all summer. Prefers some protection from the hottest summer sun.	Deciduous Ht.50cm
HYDRANGEA SERRATA MAGIC PILLOW	Masses of pink lace cap flowers. Long flowering season. Very hardy . Low growing.	50-60cm Deciduous
HYDRANGEA STRAWBERRIES AND CREAM	Lacecap . Dark green foliage with rosy/red flowers with white centres from late spring until mid-summer. Prefers partial shade and well drained soil.	Deciduous 1.2 x 1.2
HYDRANGEA TOSCA	Double creamy salmon flowers which can be turned blue by adding acids to the soil.	Deciduous. Ht 1.5m
HYDRANGEA TROPHY	Unique large creamy white flower head with double individual florets December through to February. Prune back after flowering.Grow in semi-shade. Fertilise in Spring.	Deciduous.Ht.1.5m x 1m
HYDRANGEA VILLOSA	Late summer flowering, lilac blue. Prefers to be in part shade to shade.	Deciduous Ht 2m
KOLKOWITZIA AMABILIS	(Beauty Bush)A graceful hardy shrub forming a dense twiggy bush. Soft pink bell shaped flowers draping the branches in Spring. Prefers full sun and well drained soil.	Deciduous. H 2m
PHILADELPHUS CORONARIUS	(Mock Orange) Strong growing medium sized shrub with creamy-white richly scented flowers. Particularly suitable for very dry soil. Hardy.	Deciduous. Ht 3m
PHILADELPHUS FROSTY MORN	Small shrub which produces fragrant, double white flowers in early summer. Very Hardy. Trim after flowering.	Deciduous. Ht 1.5m
PHILADELPHUS SYBILLE	Arching branches. Masses of single white flowers with central lavender stain. Strong orange scent. Hardy.	Deciduous. Ht 2m
PHILADELPHUS VIRGINAL	A strong growing erect-branched shrub, with mock orange flowers richly fragrant. Probably the best double flowered cultivar.	Deciduous. Ht 2m
PHYSOCARPUS OPULIFOLIUM SHADY LADY	Luscious, dark foliage covered from midsummer with masses of cream coloured pom-pom blooms. Tolerant of most garden soils. Sun to part shade. Fully hardy.	Deciduous Ht 2m x 1.5m
PHYSOCARPUS OPULIFOLIUS LUTEUS	(Golden Ninebark) Hardy, vigorous shrub with attractive peeling bark and heart-shaped yellow leaves in spring. White tinged pink flowers with purple stamens in summer with red pods following.Foliage good for picking.	Deciduous Ht 1.8m.
RHUS TYPHINA	(Stag's Horn Sumach) Small tree with large pinnate downy leaves, turning rich orange, red, yellow and purple in autumn. Hairy crimson fruits in winter.	Deciduous Ht 3m
SAMBUCUS NIGRA AUREA	(GOLDEN ELDER) Leaves golden yellow deepening with age. One of the hardiest and most attractive of golden foliaged shrubs.	Deciduous Ht 3m
SAMBUCUS NIGRA BLACK BEAUTY	Dark purple/black leaves which turn red in Autumn. Fragrant pink flowers in Spring followed by black berries. Prune after fruiting finished. Very hardy.	Deciduous Ht 3m
SAMBUCUS NIGRA PURPUREA	Form of Elder with leaves that are green when young becoming deep purplish-black ,turning red in autumn.Flowers contrast well with foliage, being pink in bud opening white.Very hardy.	Deciduous Ht 2m
SPIRAEA BUMALDA ANTHONY WATERER	Flowers bright crimson throughout summer. New foliage variegated cream and pink turning dark green. Excellent dwarf shrub for borders. Very hardy.	Deciduous Ht 1m.
SPIRAEA GOLD FLAME	Leaves flame orange paling to gold yellow and light green as the season progresses. Pink flowers in Spring.	Deciduous. Ht 1m
STYRAX JAPONICA	(SNOW BELL) Very beautiful small tree. White bell shaped fragrant flowers in summer.Very hardy tree which prefers lime free soil sun or semi shade.	Deciduous. Ht 3.5m

Plant Variety	Narrative	Spec.
<b>Shrub (continued)</b>		
SYMPHORICARPOS DOORENBOSII MOTHER PEARL	(Snowberry) A compact, hardy shrub with small leaves and arching stems that in summer have pale pink flowers. In winter there are dense clusters of small pink flushed white berries. Prefers sun/part shade and well drained soil.	Deciduous. Ht 1m
VIBURNUM BODNANTENSE DAWN	A strong-growing large deciduous shrub of upright growth, with dark green, ovate leaves and clusters of scented, light pink and white flowers opening from autumn to spring, from red buds	Deciduous. Ht 2m
VIBURNUM CARLESII	One of the best viburnums. Heavily scented flower clusters, pink in bud fading to white.	Deciduous. Ht 2m
VIBURNUM CARLESII AURORA	An outstanding selection with red flower buds opening to pink and white and very fragrant. Highly recommended. Dark green leaves turning wine-red to muted purple in autumn. Sun to part shade tolerates dry once established	Deciduous Ht 2m
VIBURNUM OPULUS COMPACTUM	A small shrub of dense compact habit, white flowers in summer. Bright red bird-proof berries in autumn and winter. Very hardy, prefers open, well-drained position.	Deciduous. Ht 1m
VIBURNUM OPULUS NANUM	A curious dwarf form with dense, tufted habit. Infrequent flowerer but colours richly in autumn.	Deciduous. Ht 50cm
VIBURNUM OPULUS STERILE	(Snowball Tree) Robust plant with maple-like deep green leaves, turning reddish/purple in autumn. Produces an abundance of sterile, white, green-tinted 7cm globular 'snowball' flower clusters. No berries. Very hardy.	Deciduous. Ht 3m
VIBURNUM OPULUS XANTHOCARPUM	large deciduous shrub with maple-like leaves turning yellow or pinkish in autumn. Creamy-white flowers in flattened heads are followed by translucent deep yellow berries Very hardy.	Deciduous. Ht 2.5m
VIBURNUM PLICATUM MARIESII	Creamy white flowers in early summer along upper sides of branches giving snow like appearance. Ideal in a mixed bed or as hedge row. Dark green leaves which turn reddish purple in autumn. Plant in fertile free draining soil and full sun.	Deciduous. Ht 2m
VIBURNUM PLICATUM NEWPORT	(Japanese Snowball Tree) Double rows of white snowballs along the horizontal tiered branches in spring giving the appearance of icing on a layered cake. Compact bushy habit.	Deciduous. Ht 2m.
VIBURNUM PLICATUM PINK BEAUTY	A profusion of blush pink, flat flowers on tiered branches. Rounded growth habit with branches in layers. Good autumn colour and very hardy.	Deciduous. Ht 2m
VIBURNUM SARGENTII ONONDAGA	A splendid form with deep maroon young leaves, lovely white flower heads and maroon/purple/red foliage in autumn. Prefers rich, free draining soil. Sun or part-shade.	Deciduous. Ht. 3m
VIBURNUM TRILOBUM	Large vigorous shrub with white lacecap flowers and red, long lasting berries in autumn and winter. Good autumn colour. Very hardy .	Ht 2m Deciduous.
VIBURNUM X BURKWOODII	Waxy white flushed pink flowers in early spring which are intensely fragrant. Twiggy bush with oval leaves of glossy green turning orange/red in autumn and winter.	Semi Evergreen Ht 1.5m
VIBURNUM x BURKWOODII ANNE RUSSELL	Pink buds open to very fragrant, tubular white flowers with five spreading lobes, borne in rounded clusters to 8cm in width. Semi- deciduous. Hardy	Deciduous. Ht 1.8m
VITEX AGNUS-CASTUS	(CHASTE TREE) An attractive, quick-growing, bushy shrub. Grey-green foliage and long racemes of lavender flowers. Attractive to butterflies. Tolerant of dry soils. Prune after flowering.	Deciduous Ht 2m
WEIGELA FLORIDA VARIEGATA	An excellent medium sized variegated shrub. Leaves are edged creamy white and flowers are deep rose funnel shaped. Trim out old stems. Deciduous.	Deciduous. Ht 2m
WEIGELA FLORIDA WINE AND ROSE	Dark burgundy purple leaves. Deep cherry spring blooms in early Spring. Prefers full sun and rich soils.	Deciduous Ht. 1.8m
WEIGELIA FLORIDA PINK	Beautiful funnel shaped light pink flowers blossom on stem through spring and summer. Prune after flowering. Full sun to part shade moist well-drained soil. Frost tolerant	Deciduous

**evergreen**

Plant Variety	Narrative	Spec.
<b>Shrub (continued)</b>		
ABELIA DWARF WHITE	Small shrub with glossy green foliage turning bronze in Autumn. Clusters of pure white flowers in summer. Prefers full sun. Excellent for hedging	Evergreen 1x1M
ABELIA GRANDIFLORA RASPBERRY PROFUSION	A compact shrub with small glossy leaves and pretty raspberry flowers from Summer to Autumn. Prefers full sun and well drained soil. Ideal for hedges and pots.	Evergreen Ht. 1m
ABELIA SNOW SHOWERS	An attractive shrub with white and green variegated foliage on red stems. Covered in white flowers through summer. Excellent for hanging baskets. Hardy.	Evergreen Ht. 1m x 1m
ABELIA SUNSHINE DAYDREAM	Awesome tricolour variegation of pink, yellow and green on this mounding shrub. Fragrant, white blooms with rosy tones. Easy to grow but best with good soil and plenty of sun. Very hardy.	Evergreen Ht 0.9m X 1.2m w
ABUTILON ASHFORD RED	Large red lantern flowers on a compact shrub. Prefers some summer shade. Hardy. Protect from heavy frost	Evergreen Ht. 1.5m
ABUTILON BOWL OF SNOW	Pure white flowers and yellow stamen during summer. Prefers some shade Hardy.	Evergreen Ht 1.2m
ABUTILON DARWINII HYBRID PEACH	(Chinese Lantern) Masses of large peach bell like flowers in summer. Prune after flowering to keep plant tidy. Semi shade or full sun. Ideal for containers. Protect from heavy frost.	Evergreen Ht. 1.5m
ABUTILON ORANGE HYBRID	Lantern- like bright orange hanging flowers in Summer. A bushy shrub with soft green leaves. Trim after flowering to maintain compact. Protect from heavy frost. Prefers sunny well drained position or part shade.	
ABUTILON ORANGE KING	Lantern- like bright orange hanging flowers in Summer. A bushy shrub with soft green leaves. Trim after flowering to maintain compact. Protect from heavy frost. Prefers sunny well drained position or part shade.	Evergreen Ht 1.5m
ACACIA COGNATA FETUCCINI	Attractive plant with twisted fresh green, fettuccine-like foliage. Forms dense low maintenance groundcover. Great in pots. Prefers well drained soil and full sun to part shade. Protect from frost.	Evergreen Ht 80 X 80 cm
ACACIA COGNATA LIMELIGHT	Attractive plant with lime green soft weeping foliage .Forms a dense low maintenance groundcover. Great in pots. Prefers well-drained soil and full sun to part shade. Protect from heavy frost.	Evergreen Ht 80 X 80cm
ACRADENIA FRANKLINIAE	Upright, stiffly branched shrub with aromatic leaves. From late spring to early summer, small clusters of white, star-shaped flowers appear.	Ht 3m Evergreen.
AGAPANTHUS BABY BLUE	A true dwarf agapanthus suitable for small gardens. Blue flowers in summer. Very hardy.	Perennial. Ht 30cm
AGAPANTHUS BLUE DOT	Outstanding form producing masses of sky blue flowers in summer. Attractive bushy compact habit.	Perennial Ht 40cm
AGAPANTHUS GAYLES SAPPHIRE	A compact selection forming a tidy clump. Ideal for widespread plantings. Excellent cut flower is a deep blue/indigo.	Evergreen 50cm x 40cm
AGAPANTHUS GOLD STRIKE	Stunning variety with broad strappy leaves , which are green and gold. Deep blue bud open to striped blue and white flowers. Full sun to part shade. Protect from frost.(PVR)	
AGAPANTHUS ORIENTALIS	Green strap-like leaves. Large round heads of blue flowers. Excellent for coastal sites.	Evergreen Ht 1m
AGAPANTHUS ORIENTALIS ALBA	Green strap-like leaves. Large round heads of white flowers. Excellent for coastal sites.	Perennial. Ht 1m
AGAPANTHUS ORIENTALIS TIMARU	Good compact form of agapanthus with green strappy leaves. Produces very dark blue flower heads in summer. Good coastal plant . Useful in borders .	Evergreen Ht 40cm
AGAPANTHUS SEA FOAM	Semi dwarf variety with pure white flowers in summer. Grows in most soils and tolerates wind and coastal conditions.	Perennial. Ht 80 cm
AGAPANTHUS SILVER BABY	Dwarf compact variety with steely silver foliage and superb white flowers. Ideal for coastal or rockery planting. Great for floral artwork.	Evergreen Ht 30cm
AGAPANTHUS TINKERBELL	Dwarf form with cream and green variegated leaves. Once established it produces dainty clusters of violet-blue flowers. Requires free draining soil. Sun or part shade.	Evergreen. Ht. 30cm
AGAPANTHUS WAVY NAVY	Dark royal blue flowers during summer. Broad green strap-like leaves for sunny dry position. Tolerates mild frost.	Evergreen Ht. 1m

Plant Variety	Narrative	Spec.
<b>Shrub (continued)</b>		
ANDROMEDA POLIFOLIA COMPACTA	(Dwarf Bog Rosemary) Open shrub with narrow, leathery, grey-green foliage. Clusters of pink flowers from early spring. Full sun to part shade and humus rich moist acid soil. Very cold hardy.	Evergreen Ht 30-50cm x 60cm
ANDROMEDA POLIFOLIA COMPACTA ALBA	( Dwarf White Bog Rosemary) Compact shrub with narrow , leathery, grey-green foliage . Clusters of pure white flowers from early spring. Full sun to part shade and humus rich moist soil. Very cold hardy.	Evergreen Ht 30cm X 60cm
ANIGOZANTHOS CELEBRATIONS AUSSIE SPIRIT	Bright green sword like leaves form a fan. Unique green and yellow woolly flowers. Prefers a warm sunny site. Attracts nectar feeding birds. Remove spent flowers for continued flowering. Protect from heavy frost	Perennial 35cmH 40cmW
ANIGOZANTHOS FLAVIDUS RED	Bright green sword like leaves form a fan. Bright red woolly flowers carried on red stems. Prefers a warm sunny site. Attracts nectar feeding birds. Remove spent flowers for continued flowering. Protect from heavy frost	Perennial 60cmH x 40cm
ANIGOZANTHOS YELLOW	(Kangaroo Paw) Stunning yellow flowers in summer. Excellent as a cut flower. Plant in well drained soil in full sun. Protect from Frost.	Evergreen Ht. 60cm
ARBUTUS UNEDO	(Irish Strawberry Tree) Flowers late autumn in drooping clusters. Plant in sun or semi- shade. Tolerant of dry and limey soils when established. Fruit attract bellbirds. Very hardy.	Evergreen Ht 4m in 20yrs
ASCEPLIAS PHYSOCARPA	(Swan Plant) Attracts Monarch Butterfly caterpillar. Easily grown. Attractive 'swan' shaped seed pods. Prefers full sun and needs protection from heavy frost.	Evergreen. Ht 1x1m
ATRIPLEX CINEREA	Grey Saltbush. A dense, spreading bush with attractive grey foliage and cream flowers. For a dry spot in sun or semi-shade. Tolerates salt spray. Prune to maintain shape.	Evergreen Ht. 50cm
AUCUBA JAPONICA (MALE)	Pollinator for female form. Will grow in heavy shade. Suitable for any soils. Suitable as indoor plant. Hardy	Evergreen. Ht 1m
AUCUBA JAPONICA FOREST GREEN	Large dense bushy habit, with bold large dark green leaves. Small clusters of olive green flowers followed by bright red berries, 2 cm in autumn. Tolerant of heavy shade and dry conditions. Hardy. (Female)	Evergreen Ht 1.5m
BACCHARIS TWIN PEAKS	Very hardy ground cover which is great in coastal areas. Small white flowers. Serrated grey-green leaves. Will grow well in poorer soils once established.	Evergreen 50cm x W 1m
BAMBUSA MULTIPLEX WANG TSAI	Clump forming bamboo, native to China. Graceful curving green to orange brown stems and dark green tufted foliage. Hardy. Suitable for container growing. Protect from heavy frost.	Evergreen. Ht 2m
BANKSIA INTEGRIFOLIA	(Coast Banksia) Masses of 15cm honey laden pale yellow flower spikes produced from early autumn to winter. Attractive to Tuis and Bellbirds. Hardy to coastal conditions. Protect from heavy frost.	Evergreen. Ht 2.5m
BORONIA MEGASTIGMA	(Brown Boronia) Very popular highly scented brown boronia. To really appreciate plant in a sheltered place that you can brush past. Trim when finished flowering. Prefers sunny position, well drained soil	Evergreen. Ht 1m
BORONIA MEGASTIGMA LUTEA	(Yellow Boronia) Very highly scented boronia with yellow flowers. Popular for this reason. Plant in a sheltered place. Trim after flowering.	Ht 1m Evergreen.
BORONIA MEGASTIGMA TUI	Improved form with incredible perfume. Thrives in moist well drained soil in dappled shade. tolerates full sun if roots kept cool.	Evergreen. Ht 1m
BORONIA PURPLE JARED	(Cross between heterophylla and megastigma) An attractive, upright bushy shrub with aromatic fernlike foliage and large purple bell-shaped flowers. Best in full sun or partial shade. Keep roots cool and moist during dry periods.	Evergreen Ht. 1m x 75 cm
BRUGMANSIA X CANDIDA GOLD	(Datura) Small tree with large soft leaves. Produces large, fragrant, pendulous, gold flowers, about 20cm long with frilled ends. Flowers nearly all year in frost free site. Strong scent at night. Needs well drained soil and protection from frost.	Evergreen Ht 3m x 2m
BUXUS HARLANDII RICHARD	A rounded leaf with an indentation at the tip to create an almost heart shaped leaf. Excellent compact form. Slow growing. Resistant to buxus blight	Evergreen Ht. 1m
BUXUS MICROPHYLLA INDEPENDENCE	Deep green boxwood that holds its colour all winter. Strong bushy grower with good insect and disease resistance. Fertile well drained soil in sun to part shade, feed in spring. PVR	Evergreen 1m x 80cm

Plant Variety	Narrative	Spec.
<b>Shrub (continued)</b>		
BUXUS SEMPERVIRENS	(Common Box) Dense small dark green leaves. Ideal for hedges and topiaries.. Prefers fertile soils, full sun or part shade. Prune regularly and feed after pruning.	Evergreen. Ht 80cm
BUXUS SEMPERVIRENS 1 LARGE 2 SMALL BALL	(Common Box) Dense small dark green leaves. Ideal for hedges and topiaries.. Prefers fertile soils, full sun or part shade. Prune regularly and feed after pruning.	Evergreen 80cm
BUXUS SEMPERVIRENS GRAHAM BLANDY	Upright form of English Box with narrow habit and rich green leaves .Fairly fast growing .Requires minimal trimming to retain shape. Ideal for landscape feature.Very hardy.	Evergreen Ht 2-3m
BUXUS SEMPERVIRENS SUFFRUTICOSA	(Dwarf Edging Box) Small bright shining green dense leaves. Ideal for hedges, edging and easily maintained as a narrow living wall as low as 15cm. Hardy	Evergreen. Ht 30cm
CALLISTEMON HOT PINK	(slendens X pallidum) Australian native shrub with shiny leaves,pink when new.In late spring produces hot pink bottle brush like flowers ,loved by birds .Prefers full sun and well drained soil.	Evergreen Ht 1.2m X 80cm
CALLISTEMON KINGS PARK SPECIAL	Bunches of long red bottlebrush flowers during spring. Thrives in a open position. Prune after flowering.	Evergreen. Ht 3m
CALLISTEMON MR FOSTER	Fabulous deep red bottlebrush flowers up to 20 cm long are dusted with yellow pollen.Flowers over long period.Prefers full sun.Tolerates coastal wind and moist soil conditions.	Evergreen. Ht 2m
CALLISTEMON RED CLUSTER	A profuse flowering bottlebrush with bright red flowers covering the bush in spring and autumn. Will tolerate dry conditions once established. Attractive to bees and birds.	Evergreen. Ht 2m
CALLISTEMON WHITE ANZAC	Spreading shrub with 10-15cm long brushes of pure white flowers, fading to creamy-white, over summer. Prune well after flowering. Tolerates dry conditions when established. Hardy.	Evergreen Ht 1mx 3m
CALLUNA DARK STAR	NEW Bright green foliage producing stems of dark cerise flowers inautumn. Foliage turns mustard in winter.	Evergreen. Ht 20- 40cm
CALLUNA ELSIE PURNELL	Upright spikes of bell shaped rich-pink flowers. Autumn flowering. Prefers well drained soils and sunny positions.	Evergreen Ht. 30cm
CALLUNA JIMMY DYCE	Dark green foliage, tinged red in cold conditions. Bright pink/purple flowers. Free drainind acidic soil and full sun. Hardy	Evergreen 50cm H
CALLUNA RED STAR	Dark green foliage that turns reddish-brown in winter, with light to dark pink flowers in Autumn. Prefers well drained, acidic soil and full sun. Hardy.	Evergreen Ht 40cm
CANTUA BI-COLOUR	Attractive fuchsia-like flowers in yellow and white. This semi-erect shrub prefers a warm sheltered position. It is a South American native, half hardy for our climate.	Ht 1.5m Evergreen.
CANTUA PYRIFOLIA	(Floer of the incas)Graceful weeping shrub with striking tubular flowers, cream with yellow flaring lobes in spring. Hardy. Trim after flowering.	Evergreen Ht.2 x 1m
CASUARINA GLAUCA COUSIN IT	A groundcover with interesting cascading lime foliage. Great on dry banks and for cascading down retaining walls. Prefers full sun and well drained soil. Protect from heavy frosts.	Groundcover Ht20cm x W 1m
CEANOTHUS BLUE SAPPHIRE	Spring flowering shrub with bright blue flowers that smother the bush. Dark purple-green foliage. Prune to shape if required.	Evergreen Ht 60cm
CEANOTHUS JOYCE COULTER	(Californian Lilac) Very vigorous, extremely wide spreading plant good for banks or ground cover. Masses of blue flowers in spring. Very Hardy.	Evergreen Ht 1m x 3m
CEANOTHUS PAPILLOSUS ROWEANUS	(Californian Lilac) A rounded dense bush with dark blue flowers and glossy green leaves. Attracts bees. Hardy and fast growing.	Evergreen Ht 2m
CHAMAECYTISUS PALMENSIS	(TREE LUCERNE) Quick growing tree with white pea-like flowers during late winter and spring. Very attractive to birds.Can also be used as fodder crop. Trim regularly if not being used as fodder crop.	Evergreen. Ht 4-5m
CHOISYA AZTEC PEARL	Finely cut green foliage.Large creamy white flowers in late spring and often again in autumn. Pink buds opening to fragrant flowers. Hardy.	Evergreen. 1.5 m
CHOISYA TERNATA	(Mexican Orange Blossom) A neat compact shrub which in spring is covered in white orange blossom-like scented flowers. Very hardy. Trims well. Tolerates shade or sun.	Evergreen. Ht 1.5m

Plant Variety	Narrative	Spec.
<b>Shrub (continued)</b>		
CHOISYA TERNATA SUNDANCE	Golden foliage form of "Mexican Orange Blossom". Sweetly scented white flowers late spring and summer. Prefers some shade. Leaves can burn in hot sun.	Evergreen. Ht 1.2m
CISTUS BRILLIANCY	Large rosy pink flowers in Spring and Summer. Excellent for sunny dry and coastal sites. Prune after flowering. Very hardy.	Evergreen. Ht 1.2m
CISTUS SALVIFOLIUS 'SNOWMOUND'	Low, trailing free-flowering shrub, white flowers with golden yellow centres in Spring. Foliage is dark grey-green above and whitish below. Suitable Rockery, Border, Cottage Garden.	Evergreen Ht. 75 x 1.5m
CISTUS SILVER MAGIC	(Rock Rose) Clear pink flowers throughout Spring and Summer. Ideal for dry banks and Coastal Areas. Prefers full sun and well drained soil.	Evergreen Ht 1m
CISTUS X LUSITANICUS	Free flowering. White flowers with maroon blotch and yellow at base of petals. Especially useful for dry soils. Prune after flowering.	Evergreen Ht 75cm
COLEONEMA PULCHRUM	Erect growing shrub with long slender branches. Pink flowers. Tangy aromatic leaves and stems.	Ht 1.5m Evergreen.
COLEONEMA PULCHRUM SUNSET GOLD	(Golden Diosma) Bright gold aromatic foliage and pink starry flowers in profusion in spring. Low growing. Sunny position.	Evergreen. 0.7 x 1.0m
COLEONEMA PULCHRUM WINTER CHARM	Beautiful compact shrub, studded with pink starry flowers in late winter. Flowers earlier than other varieties. Highly aromatic leaves. Hardy.	Evergreen. Ht 1.5m
CORREA GRANNY'S GRAVE	An Australian Native which has an abundance of green/yellow cylindrical shaped flowers from Autumn into Winter. Tolerates some frost and coastal conditions. Prefers full sun to part shade and well drained soil.	Evergreen Ht 50cm x W 50cm
CORREA MANNII	Small growing shrub, requires good drainage and sun. Orange tubular flowers throughout autumn and winter. Protect from heavy frosts.	Evergreen Ht 50cm
CORREA MARIAN'S MARVEL	A lovely evergreen shrub with two tone pink/yellow tubular shaped flowers. Prefers full sun and well drained soil. Protect from heavy frost.	Evergreen Ht 1m
COTONEASTER CORNUBIA	A vigorous shrub with red fruits that are perhaps the largest of the Cotoneasters, and borne in profusion weighing down the branches.	Evergreen. Ht 4m
COTONEASTER DAMNERI 'ROYAL BEAUTY'	Excellent ground cover with glossy leaves, open growth habit, white flowers, and orange berries. Very hardy.	Evergreen.
CYTISUS ALBA	(White Flowering Ornamental Broom) Becomes covered in pure white flowers in late winter early spring. Very hardy. Prune after flowering.	Evergreen Ht 2m
CYTISUS BEANII	Prostrate broom with golden flowers. Ideal for over rocks or weeping position. Prefers full sun. Hardy.	Evergreen. Ht 40cm
CYTISUS DALLIMOREI LENA	A spectacular broom. Flowers lemon yellow with ruby red wings. Prune after flowering. Good for dry banks. Hardy	Evergreen Ht. 1.5m
CYTISUS LORD LAMBOURNE	This red and cream bicoloured pea-like flowers in Spring and early Summer. Prefers sunny well drained position. Hardy	Evergreen Ht 1.5 - 2m
CYTISUS RUBY	(Red Flowering Broom) Crimson flowers in spring. Vigorous, erect bush. Very hardy. Prune after flowering.	Evergreen Ht 2m
DAPHNE BHOLUA	(Himalayan Daphne) Long narrow foliage with attractive scented pink flowers throughout winter. Prefers semi shade of sun. Very hardy, semi evergreen. Height 2m - ideal for standards	Semi -Evergreen Ht 2m
DAPHNE PERFUME PRINCESS	(Bholua x odora) Early flowering (mid winter) Masses of blush pink and fade to white, ball-shaped clusters flowers. Highly perfumed - with soft citrus undertones. Bushy upright shrub prefers well drained soil and full sun or partial shade.	Evergreen Ht. 1.5mH
DAPHNE PERFUME PRINCESS WHITE	(Bholua x odora) Early flowering (mid winter) Pure white large ball-shaped clusters of star like flowers. Highly perfumed - with soft citrus undertones. Bushy upright shrub prefers well drained soil and full sun or partial shade.	Evergreen Ht. 1.5m
DIDRANGEA VERSICOLA	Bushy erect shrub with large rich green leaves that turn purple-green in Autumn. Large heads of electric blue waxy star-like flowers in summer and Autumn. Best in well drained semi-shaded position.	Evergreen 1.5mH x 1mW

Plant Variety	Narrative	Spec.
<b>Shrub (continued)</b>		
DIETES BICOLOUR	A clump forming plant with sword-like foliage. Yellow flowers with brown eyes appear throughout the warmer months. Very hardy in most well drained sunny positions.	Evergreen Ht 1m
DRIMYS LANCEOLATA	(Was aromtica) A compact aromatic shrub from Tasmania. The young stems are a good red colour holding this throughout the year. Numerous small creamy-white flowers in Oct-Nov. Cold and drought hardy.	Evergreen Ht 1.5m
ELAEAGNUS PUNGENS MACULATA	Leaves with a central splash of gold giving a very bright effect. Outstanding in the winter. Very hardy shrub which can be pruned to shape.	Evergreen. Ht 1.5m
ELAEAGNUS X EBBINGEI	Hardy fast-growing shrub with large silvery green leaves giving a very bright effect. Has small scented cream flowers in autumn. Very hardy and suitable for coastal planting. Or pruned as hedge, but unlikely to flower if pruned regularly. .	Evergreen. Ht 2-3m
ENKIANTHUS CAMPANULATUS	Cream striped, pink lily of the valley flowers. Good autumn colours. Bright Autumn colours. Excellent woodland plant.	Deciduous Ht 1.5m
ERICA AURORA	A hardy upright growing erica up to 1m tall. Has attractive bright red to orange tubular flowers during winter in clusters. Requires a well drained,sunny lime free position.	Evergreen Ht 1m
ERICA CARNEA PINK SPANGLES	Delightful soft pink flowers. Compact grower. Very hardy.	Evergreen Ht 30cm
ERICA CERINTHOIDES RED	Small shrub with dark green needle-like foliage. Stunning tubular red flower clusters throughout winter and spring. Trim stems well after flowering to maintain shape. Prefers a sunny warm site.	Evergreen Ht. 1m
ERICA ISABEL	Compact new erica with fresh green foliage and masses of white flowers on upright stems. Excellent in borders or mass plantings.	Evergreen. Ht 40cm
ERICA KRAMERS RED	Good flowering low growing Erica. Deep pink to red flowers. Plant in full sun, open situation. Very hardy.	Evergreen Ht 30cm
ERICA MELANTHERA IMPROVED	A small leaved compact heath with masses of lavender-purple flowers in autumn. Prefers a sunny, well drained position.	Evergreen Ht 40cm
ERICA MYRETOUN RUBY	Excellent winter flowering variety. Dark red flowers. Prefers acidic soil conditions. Extremely hardy .	Evergreen Ht 30cm
ERICA RUBY SHEPPARD	Compact bright pinkish-Mauve flowers in early winter. Similar to Melanthera. Prefers a sunny, well drained position. Hardy	Evergreen Ht. 1m
ERICA SPRINGWOOD WHITE	Very hardy winter flowering white erica. Makes good ground cover or can grow down walls or banks.	Evergreen. 15 x 60cm
ERICA WHITE HALL	Compact plant with bright green foliage .Masses of pure white flowers in winter. Very hardy. Suitable for mass planting or borders.	Evergreen. Ht 30cm
ERIOSTEMON MYOPOROIDES PROFUSION	Syn. Philotheca myoporoides Profusion. Waxy white flowers begin in late winter and continue for months in early summer. Hardy.	Ht 1 x 1m Evergreen.
ESCALLONIA APPLE BLOSSOM	A rounded shrub with glossy green leaves and pink and white flowers. Wind tolerant and excellent for coastal areas. Makes good hedge.	Evergreen Ht 1.5m.
ESCALLONIA FIELDERS WHITE	A fast growing shrub with glossy green foliage. Small tubular white flowers in summer. Ideal as a hedging plant. Hardy.	Evergreen Ht. 3.5m
ESCALLONIA MACRANTHA	Flowers rose-crimson during summer and early autumn. Large glossygreen leaves. Very hardy. Withstands coastal gales.	Evergreen. Ht 3m
EUONYMOUS MINIMUS	A prostrate cultivar that bears small oval dark green leaves. Small white flowers during summer. Hardy.	Evergreen Ground cover 1mx20cm
EUONYMUS GREEN SPIRE	Compact shrub with an upright growing habit. Dense rich green glossy leaves. Excellent for low hedging or topiary. Prefers sunny position with moist but well drained soil.	Evergreen Ht.1.5m
EURYOPS PECTINATUS	Rich yellow daisy-like flowers produced throughout year but most freely from Aug - Dec. Very hardy. Tolerates coastal conditions. Prefers full sun and good drainage. Protect from heavy frost.	Evergreen. Ht 1m
FATSIA JAPONICA	(Aralia)A handsome medium to large shrub of spreading habit. Large polished green leaves emphasise the globular white flower heads that appear in autumn. Suitable for growing indoors or outdoors with some shade. Needs protection from frost.	Evergreen Ht 4m

Plant Variety	Narrative	Spec.
<b>Shrub (continued)</b>		
GARDENIA JASMINOIDES BUTTONS	Exquisite flowers that are creamy white and fragrant from late spring through Summer. Prefers warm sunny position. Protect from frost.	Evergreen Ht. 80cm
GARDENIA PROFESSOR PUCCI	Cape Jasmine, a strong growing shrub with lovely shiney green foliage and fully double creamy white flowers with exquisite perfume. Prefers semi shade. Protect from frost.	Evergreen. Height 1.5 m
GARDENIA TRUE LOVE	Large pure white double blooms that are very fragrant. Glossy dark green foliage. Plant in full sun or part shade. Prefer their roots to be kept cool. Feed once a year with general fertiliser.	Evergreen 1x1M
GARRYA ELLIPTICA	(Catkin Bush) Magnificent large evergreen shrub draped with long green catkins in winter. Flowers popular for floral art. Will grow on coast and south walls. Cold hardy.	Evergreen Ht 3m
GAULTHERUA MUCRONATA RUBIES N PEARLS	Compact bushy shrub with glossy green leaves and single white flowers in Spring. Followed in Autumn by showy berries that are up to 1.5 cm across. Prefers moist shaded conditions.	Evergreen Ht 1.2m
GREVILLEA AUSSIE CRAWL	A vigorous, prostrate groundcover, good for mass planting. New growth has bronze-red tones. Red flowers in late winter - autumn. Likes a well drained, sunny spot. Protect from heavy frost.	Evergreen 2m wide
GREVILLEA CHERRY RIPE	Compact shrub with soft grey green foliage. Masses of bunched waxy cherry red flowers in summer. Prefers a well drained sunny position. Tolerates moderate frost.	Evergreen Ht 40 X 50cm
GREVILLEA GAUDIS GHOST	A ground cover with variegated leaves. New growth has a pink tinge, which turns white. Red Toothbrush-like flowers in late winter. Ideal for full sun and well drained soil. Protect from heavy frosts.	Evergreen Groundcover
GREVILLEA KNOCKOUT	A small hardy shrub with an outstanding display of red/yellow flowers from Autumn to winter. A nice compact shrub as wide as it is tall. Once established this plant is frost hardy and drought tolerant. PVR	Evergreen Ht. 1m
GREVILLEA LANIGERA DRUMMER BOY	Compact ground cover bush which smothers itself in little red drumsticks in winter and spring. These open to spidery red flowers with cream centre. Hardy to cold and coastal conditions.	Evergreen. Ht 50cm X 1m
GREVILLEA LANIGERA MT TAMBORITHA	Masses of flowers in red, pink cream almost all year. Prostrate habit with attractive narrow pointed green leaves. A very hardy, excellent cascading groundcover.	Evergreen Ht 30cm x 1m
GREVILLEA RED CLUSTER	Cultivar with deep red flowers from autumn to spring. Low growing habit. Prefers full sun and well drained soil. Ideal for banks and rockeries type gardens.	Evergreen. Ht 50cm
GREVILLEA ROBIN HOOD	An easily grown, attractive shrub displaying scarlet flower spikes at branch tips from spring through summer. Withstands cold and dry, but needs staking against strong wind.	Evergreen. HT 2M
GREVILLEA VICTORIAE	(Royal Grevillea) Drooping heads of rusty to orange red flowers from late summer into winter. Attracts tuis and bellbirds. Prune lightly each year to keep bushy. Very hardy to cold and wind.	Evergreen. Ht 2.5m
GREVILLEA X GAUDI CHAUDII	A very attractive, prostrate evergreen, ground cover plant. Brilliant, red, bottle-brush like flowers from spring through to summer. Hardy, wind tolerant. Plant in sunny site. Protect from heavy frost.	Evergreen Ht 15cm x 2m wide
HELICTOTRICHON SEMPERVIRENS	(Blue Oat Grass) Attractive steel-blue spiky grass ideal for sunny well drained position in rockeries, mass planting. Hardy	Evergreen. Ht 40cm
HYPERICUM CALYCINUM	Excellent ground cover for dry or wet conditions producing yellow flowers throughout summer. Best grown on larger areas and left unchecked. Very hardy.	Evergreen.
ILEX AQUIFOLIUM ANGUSTIFOLIA	A slow growing cultivar with small leaves and slender spines. Neat pyramidal habit. Very hardy.	Evergreen. Ht 60cm
ILEX CRENATA MARIESII TOM THUMB	A dwarf hardy Holly, with a columnar habit. Ideal for the rock garden or in a container. Prefers full sun and well drained soil. Female.	Evergreen Ht 50cm
ILEX CRENATA SKY PENCIL	Forms a tight structural columnar shape without pruning. Plant in full sun to part shade and in moist well drained soil. Very hardy.	Evergreen Ht. 3-4m x 1m
ILEX X MESERVEAE BLUE ANGEL	A very hardy holly with purplish shoots and glossy dark blue-green leaves. A female form which produces shiny red berries if a pollinator is nearby.	Evergreen Ht 2m

Plant Variety	Narrative	Spec.
<b>Shrub (continued)</b>		
ILLICIAM FLORIANUM WOODS RED	Upright evergreen shrub with aromatic foliage. Rich red-wine coloured flowers in spring with a port wine fragrance. Prefers a shady location with cool moist soil.	Evergreen 5M
IPOMOEIA (CONVOLVULUS) CNEORUM	Attractive soft grey foliage. Large blush white flowers in summer. Needs well drained sunny position.	Evergreen. Ht 50cm
JASMINIUM PARKERI	(Dwarf Jasmine) Dwarf twiggy shrub. Produces clear yellow Jasmine flowers without fragrance all summer followed by black berries. Great for rockeries or in containers.Hardy.	Evergreen Ht 30cm x 60cm
KALMIA LATIFOLIA "TAWA-GLEN"	(Calico Bush) Glossy green leaves with terminal clusters of lolly-pink saucer shaped flowers in spring. Selected for compact growth and massed flower display.Prefers acid soil and some shade.	Evergreen Ht 1.5m
KALMIA LATIFOLIA OSTBO RED	(Calico flower) Bright red buds open to soft pink flowers; Glossy medium green leaves; Upright rounded habit. Prefers acidic soil and part shade.	Evergreen Ht 1.5m
KALMIA LATIFOLIA PINK CHARM	A very free-flowering variety with masses of mid pink flowers opening from pinkish-red buds. Has a slightly open habit and responds well to light pruning. For an acid soil with some shade.	Ht 1m x 1m. Evergreen.
LAURUS NOBILIS	(Bay Laurel , Sweet Bay) Aromatic foliage,used commonly to flavour meats and in other cooking. Pyramidal tree or large shrub. Suitable for trimming into topiary or hedging. Thrives in coastal conditions. Very hardy.	Evergreen. Ht 4m
LEPTOSPERMUM COPPER SHEEN	Tasmanian Manuka. Upright evergreen bush with copper-bronze leaves and larger white flowers. Plant in a warm sunny position.Tolerates moist conditions.	Evergreen Ht 3m
LEPTOSPERMUM DARK NIGHT	Robust medium sized plant , which produces long stems with deep dark mauve large flowers in spring.Prune after flowering. Prefers free draining soil and full sun. Frost hardy to -4deg C	Evergreen Ht 2m x 2m
LEPTOSPERMUM MERINDA	Vibrant magenta flowers cover the bush in late Spring. Early growth is cascading. Tolerates wide range of soil types and climatic condition. Open sunny position preferred.	Evergreen. Ht 1mx1m
LEPTOSPERMUM MESMEREYES	Bushy shrub with dark silver pointed glossy leaves. Very large white flowers aging to pink. Prefers a sunny site with well drained soil. PVR	Evergreen Ht. 1m
LEPTOSPERMUM NITIDUM	Tasmanian Manuka. Upright evergreen bush with greeny-bronze leaves and larger white flowers. A fast growing drought tolerant tree that can be used for hedging.	Evergreen Ht. 2m
LEPTOSPERMUM PATTERSONII	Tasmanian Manuka A small slender tree with masses of silvery-grey leaves and large white manuka flowers in Spring. Frost hardy.	Evergreen Ht. 3m
LEUCADENDRON ARGENTEUM	(Silver Tree) Hardy evergreen with spectacular silvery green foliage. Small cones in spring. Likes well drained light soil, low in nutrients and open situation. Protect from frost when young.	Evergreen Ht6-8m
LEUCADENDRON CANDY DELIGHT	Small bracts open to cream throat flushed with candy pink. Well drained soil in sunny situation. Protect from heavy frosts. No fertilisers.	Evergreen Ht. 1m
LEUCADENDRON CREAM BUN	Acompact growing bush with creamy-white cup shaped flowers with a brilliant red edge.	Evergreen Ht. 1m
LEUCADENDRON GOLDEN TULIP	Large attractive, upright bush with large cream -yellow tulip shaped flowers in mid winter. Prefers full sun and well drained soil .	Evergreen Ht 2m
LEUCADENDRON JACK HARRE	Compact plant with flaming red star-like flowers on long bracts from early winter.Requires sunny well drained position.Hardy.	Evergreen. Ht 1 x 1m
LEUCADENDRON JULIE	Dainty bright yellow flowers with a pink tinge in late winter. Clip to keep bushy in Spring. Prefers a sunny, well drained site tolerates coastal conditions.	Evergreen. Ht 1m
LEUCADENDRON LAUREOLUM.	Brilliant yellow bracts in late winter and early spring. Prefers well drained soil in open sunny position. Avoid fertilisers. Protect from heavy frosts.	Evergreen Ht 2m W 1.5
LEUCADENDRON LOVING MEMORY	Magnificent hybrid from same parentage as Safari Sunset.Exceptionally bushy growth with long slender stems and brilliant flaming red bracts throughout the year.Prefers open sunny situation.Tolerates coastal conditions and medium frost	Evergreen Ht 2m x 2m
LEUCADENDRON SAFARI SUNSET	Glowing wine red bracts that turn pinkish cream in spring. Ideal for banks, borders and rockeries. Well drained soil in sunny situation. Frost hardy, although protect when young.	Evergreen. Ht 2m x 2m

Plant Variety	Narrative	Spec.
<b>Shrub (continued)</b>		
LEUCADENDRON STARBURST	A medium sized bush with green bracts which open to cream star-like flowers. Prefers a sunny position with well drained soil . Protect from heavy frosts.	Evergreen Ht.1m
LEUCADENDRON VALENTINA	(Hybrid from safari Sunset seed) Erect habit producing long stems of deep red flower heads in late summer through to winter.Prefers open sunny position and well drained soil. Good cut flower.Protect from heavy frost. PVR	Evergreen Ht 1.5m
LEUCADENDRON WATER LILY	Broad, creamy-white bracts on long stems ideal for picking. Attractive, rich green foliage. Dense compact bush. Suits sunny, well-drained site. No fertilisers or manure.	Evergreen. Ht 2m
LEUCOSPERMUM LANII	Erect semi spreading shrub with attractive orange-red pincushion flowers in mid spring. Prefers open sunny position and light free draing soil. Good coastal plant. Protect from frost.	Evergreen Ht 1.5m x 1.5m
LEUCOSPERMUM MARY LOU	A hybrid with lovely stems of terminal off yellow flowers in late Spring. Neat growth habit. Prefers sunny well drained position. Protect from Heavy frost.	Evergreen Ht. 1.5m
LEUCOTHOE FONTANESIANA RAINBOW	Leaves variegated with cream, yellow and pink. Small round shrub with arching stems and sprays of white lily of the valley flowers. Young shoots crimson.	
LIFESTYLE PLANTS ASSORTED	Mix and match native and exotic shelter grade plants \$6.25 each, 4 for \$23 or 20 for \$95	
LIGUSTRUM JAPONICUM ROTUNDIFOLIUM	A slow growing, rigid, compact shrub with round, leathery, black-green leaves. It has large panicles of white flowers in late summer. Very hardy.	Evergreen. Ht 1.5m
LOMANDRA ARCTIC FROST	Soft green narrow grey-green foliage with contrasting white edges. Heat and drought tolerant. Great in gardens and as mass planting or pots in full sun or part shade	Evergreen 60x60cm
LOMANDRA LIME TUFF	A compact selection. Lime green leaves that stay lush all year round. In summer fragrant small yellow flower spikes emerge. Extremely hardy and tolerates frost and dry	Evergreen Ht.40cm X 40cm
LOMANDRA LONGIFOILA WHITE SANDS	Attractive form with white and green weeping foliage. Looks great planted among dark green or large leafed plants.Suitable for containers or draping over walls.Prefers sunny position in free draining soil. Hardy.	Evergreen Ht 0.8 x 0.8 m
LONICERA NITIDA	(Box Honeysuckle) Densely branched shrub with small neat dark-green leaves. Ideal hedging plant to grow rapidly in most situations. Plant 40cm apart when hedging.	Evergreen. Ht 3m
LOROPETALUM CHINENSIS FIREDANCE	Attractive shrub with deep red foliage and flowers.Plant in well drained soil in part shade.Protect from frost.Give light trim after flowering.	Evergreen Ht 2m x 1.5m
LOROPETALUM CHINENSIS ICEBERRY	Arching branches with dark green leaves emerging bronze. Cream-white flowers in spring. Prefers semi shade and well drained soil.	Evergreen Ht. 1.5m
LOROPETALUM CHINENSIS PLUM DELIGHT	One of the darker purple foliage of any Lorepetalum with a pretty weepng habit. Masses of cerise flowers through Summer and Autumn. Prefers full sun and well-drained soil. Suitable for shaping. Protect from heavy frost.	Evergreen ht. 1m
LOROPETALUM CHINENSIS 'PLUM GORGEIOUS'	The darkest purple foliage of any Lorepetalum with a pretty weepng habit. Masses of cerise flowers through Summer and Autumn. Prefers full sun and well-drained soil. Suitable for shaping. Protect from heavy frost. PVR.	Evergreen 1.5m x 1m
LUCULIA GRATISSIMA 'FRAGRANT CLOUD'	An evergreen, free-growing shrub producing sweetly fragrant, almond pink flowers in winter. Plant in a sunny, well drained position. Frost tender. Prune after flowering to maintain shape.	2.5m x 2m semi- Evergreen.
LUMA APICULATA	A lovely small tree with cinnamon coloured bark. Attractive white flowers through summer and autumn. The red and black berries are edible and sweet.	Evergreen. Ht 4m
